

This is a digital copy of a book that was preserved for generations on library shelves before it was carefully scanned by Google as part of a project to make the world's books discoverable online.

It has survived long enough for the copyright to expire and the book to enter the public domain. A public domain book is one that was never subject to copyright or whose legal copyright term has expired. Whether a book is in the public domain may vary country to country. Public domain books are our gateways to the past, representing a wealth of history, culture and knowledge that's often difficult to discover.

Marks, notations and other marginalia present in the original volume will appear in this file - a reminder of this book's long journey from the publisher to a library and finally to you.

Usage guidelines

Google is proud to partner with libraries to digitize public domain materials and make them widely accessible. Public domain books belong to the public and we are merely their custodians. Nevertheless, this work is expensive, so in order to keep providing this resource, we have taken steps to prevent abuse by commercial parties, including placing technical restrictions on automated querying.

We also ask that you:

- + *Make non-commercial use of the files* We designed Google Book Search for use by individuals, and we request that you use these files for personal, non-commercial purposes.
- + *Refrain from automated querying* Do not send automated queries of any sort to Google's system: If you are conducting research on machine translation, optical character recognition or other areas where access to a large amount of text is helpful, please contact us. We encourage the use of public domain materials for these purposes and may be able to help.
- + *Maintain attribution* The Google "watermark" you see on each file is essential for informing people about this project and helping them find additional materials through Google Book Search. Please do not remove it.
- + *Keep it legal* Whatever your use, remember that you are responsible for ensuring that what you are doing is legal. Do not assume that just because we believe a book is in the public domain for users in the United States, that the work is also in the public domain for users in other countries. Whether a book is still in copyright varies from country to country, and we can't offer guidance on whether any specific use of any specific book is allowed. Please do not assume that a book's appearance in Google Book Search means it can be used in any manner anywhere in the world. Copyright infringement liability can be quite severe.

CITY OF BOSTON.

A REPORT

OF THE

RECORD COMMISSIONERS.

The present report, the thirteenth in number, is a continuation of the Selectmen's Records, and is continuous with the Eleventh Report. The entries cover the period from March 20, 1715-16, through September 8, 1736, comprising the third and fourth of the manuscript volumes.

Especial notice is called to the editorial note on page 239.

There cannot be two opinions as to the value of these minutes in which all the lesser transactions of the townsmen are recorded. The Commissioners are happy to announce that the City Council has authorized the publication of another volume of these records, as also one of the Town Records, which will be placed in the hands of the printers at once.

The Select men being Informed that the People in the Country were Alarm'd by false Reports relating to the Sickness of the Town which might soon tend to the Damage of Trade &c. Ordered the following Advertisement to be Printed in the Publick News papers. Viz^t.

Boston, October 22. 1735.

[261.] Whereas, a Report has been Spread about the Country that the Sickness which lately prevail'd in some Towns at the Eastward is got into Several Families in this Town. These may Certify, That the said Report is Altogether Groundless, there being No one Person in this Town known to be ill of that Distemper, And That it is, thro' the Goodness of God, as healthy a Time as has been known for many years past.

A. B. C. D. &c. } Select Men.

At a Meeting of the Select Men, Oct. 1. 1735.

The Select Men having received Information, That an Epidemical Sickness had for Some time past prevail'd and prov'd very mortal in Several Towns in the Eastern parts of this Province and in New Hampshire, Apprehended this Town might be in Danger of the Infection from those parts; and being desireous to use all proper means to prevent the same, They Sent to Several of the Principal Physicians of the Town desiring them to meet with them [262.] And to give their Advice upon this Important affair Who readily Attended the Select Men, in the Council Chamber, Accompanied by Dr. Tufts of Medford, who lately came from those parts, having been Employ'd among the Sick, and conversant with them, and had opportunitys to make Inquiry, (relating to the nature of the Distemper) of Several Physicians there, gave an Account of his observations thereon.

Upon which the Physicians gave it as their opinion, unanimously, That the said Distemper was Communicated by means of a bad Air, and not by Contagion.

October 4th. 1735.

Upon Information of the Arrival of a large French Ship, in the Road of Nantasket called the mareschal de Asfeldt. Capt. Anthony Le Roy Commander which came last from St. Domingo bound for Nantes, And that She had a Sickness on Board, by which they had lost a great Number of their hands in the Voyage.

The Select men Appointed Capt. Armitage and Capt. Forsyth to Wait on His Excellency (263.) The Goverour, and to Acquaint him therewith Desiring, He would please to give Order to the Captain of the Castle to Stop the said Ship from coming up before She had been properly Examin'd and Searched by the Select Men which His Excellency readily Granted accordingly, But before the said order reached the Castle, the Ship was in the Harbour. Whereupon Several of the Select men, Viz^t John Jeffries Esq^r mess^r Bromfield, Downe, Armitage and Forsyth together with m^r. Justice Stoddard, went immediately on board her, and Examin'd the Capt. respecting the Sickness said to be on board his Ship, and the Number of men he had lost, Who Declared upon oath, That he had lost but Two men in his Passage, And that all his Hands were then upon Deck, who being number'd were found to be according to his Portlidge Bill.

October 7th. 1735.

The Select men were Informed by the Rev. Dr. Williams, That One How, living in Orange street at the South end of the Town was Sick of the Distemper which had for some time past prevail'd in Kingston, and [264.] other Towns at the Eastward, Upon which they Sent for Dr. Boylston, who had the Sick Person under his Care Who was also of the Opinion that it was the Same Distemper, Wherefore the Select men fearing the Consequence Applied to m^r. Justice Anthony Stoddard, and Samuel Sewell Esq^r. for a Warrant to remove the Sick Person, Which they put off till the next day, And advised to the Sending a Carpenter, Glazier and other Hands to Spectacle Island, to fit up the Hospital there, and to make it Comfortable in order to Receive the Sick that might be sent thither, if there Should be Occasion there for Which was accordingly done. Dr. Kennedy was also Sent for, and desired to attend the Sick Person or Persons at the said Hospital, as occasion might require, Who consented to take upon him that Service. He was also desired to Visit the said How, and to make his report to the Select men, the next morning, at Nine of the Clock, To which time they adjourn'd.

October. 8th. 1735.

The Select men being met According to Adjournment, Dr. Kennedy Reported [265.] That according to Order, he had Visited m^r. How, and found him very ill, and Attended with dangerous Symptoms. Dr. Williams, Boylstone and Davis confirmed the same, but withall giving it as their Opinion, That the Distemper was not Infectious. Notwithstanding which, The Select men desired John Jeffries Esq^r with Capt. Armitage and Capt. Forsyth to go to the Widow How, to know if She could be prevail'd with, to Allow her Son to be removed in Order to prevent, if possible, the Spreading of the Distemper Who return'd, That she Absolutely refused, Saying They Should Rase the Foundations of her House, before She would Suffer it.

Upon this Report the Select Men Apply'd again to the Justices for a Warrant to open the Doors of the said How by force, in order to remove her Sick Son. Which they refused to Grant.

Whereupon the Select men made Application to the Governour and Council, Who directed them again to the Justices of the Peace.

The Select men accordingly renewing their Request of the said Justices, They still Refused to Grant such a Warrant, unless the [266.] Physicians would Say, That the Distemper was Contagious, which they could not Affirm. The Select men thereupon Ordered proper Persons to keep a Strict Watch at the said House, until further Order, to prevent any Communication with the same.

At a Meeting of the Select men, Oct. 27. 1735.

Whereas the Work of the Town Clerk in Writing, &c. for the Service of the Town has for some time past been much encreased, by the Extraordinary Occasions of the Town, Therefore, Voted

and Ordered, That the Town Clerk for the time being, do for the future, Exhibit his accounts unto the Select men Quarterly, for their Examination, in Order to their Allowance.

At a Meeting of the Select Men, Nov. 5. 1735.
